

Warehouse Shopping in the Great Outdoors

Visitors can't drive far into Warren County without realizing this is "The Nursery Capital."

Every highway leading into McMinnville is dotted with beautiful landscaping nurseries — roughly 650 are scattered throughout the region. Their specialties range from starting plants for other growers to selling wholesale only by the semi-truckload.

But there are plenty that welcome individual buyers as well. The purpose of this brochure is to help you find them.

Buying from a local nurseryman is a lot like warehouse shopping. You'll find fresher products in large quantities, a greater selection, and better value in terms of both price and quality. But like in a warehouse store, you may have to do more walking and won't find a salesman on every aisle.

All addresses are McMinnville, TN 37110 unless otherwise listed
